DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 24-38 and 41-48 are rejected under 35 U.S.C. 102(b) as being anticipated by Farris.

In regard to claims 24, 27, 31 and 48, The Farris reference discloses a “needleless dosage transfer system” (see Figures) comprising an “ampule” 20, a “coupler” 8, and a “cap” 40, as claimed. Farris also discloses in column 1, lines 45-49, “The process involves loading the syringe with a sterile, pharmaceutical-grade fluid by extracting medicating fluid from a vial by using the affixed needle of a syringe for access.” **Further, all statements of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Farris device which is further capable of delivering a “nonliquid fluid”. Whether the Farris device was actually used in such a manner is dependent upon the performance or non-performance of a future act of use and not upon a particular structural relationship set forth in the claims.**

In regard to claim 25, “coupler” 8 tapers in a converging manner.

In regard to claim 26, see “scoreline” 30.

Art Unit: 3751

In regard to claim 28, see column 7, lines 5-8.

In regard to claim 29, see column 7, lines 8-17.

In regard to claim 30, see column 7, lines 25-34.

In regard to claims 32-38 are rejected as discussed supra.

In regard to claims 41-47, it is disclosed that "filtered needles" are commonly used on these devices (see col. 1, lines 41-45).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
